

MAY

FLOURISHING LIFE

May marks a period of abundant growth and flourishing life in the natural world. As spring continues to unfold, the beauty of nature becomes even more evident, with lush greenery, blooming flowers, and vibrant wildlife. In this month's scavenger hunt, we invite you to embrace the richness of nature's abundance. Explore the thriving ecosystems, appreciate the diversity of life, and connect with the vitality of May.

- Press wildflowers to make a picture.
- No Mow May - leave a patch of garden for wildlife.
- Find a wildflower meadow.
- Explore different water sources (rivers, ponds, the sea.)

"Happiness? The colour of it must be spring green."
-frances Mayes
